Alex,

We have been behind on getting EA's SAP finalized. I just got confirmation that I would get it approved this week so it is possible that EA could be in the field doing splits and not just monitoring the sampling effort.

I am trying to figure out what we can get mobilized this quickly. I will let you know as soon as I know what we can do. It may be pragmatic for your folks to count on sampling. I apologize because I don't really know how heavy a lift this is for your folks.

Thanks

Chuck

Daewon and Charles: Is USEPA going to be collecting samples at Area 40 next week or should I plan on getting prepared to do so?

Thanks, Alex
